**INDIA'S BEST AFTERSCHOOL PROGRAM**  
**Educating Generation Next**

TWO  
DECADES

10000  
CHILDREN

7500 +  
HOURS

## Introduction

Mind ventures International is a one stop solution after school program created for children and youth aged 3yrs to 16yrs. Since 2 decades Mind Ventures has enthusiastically trained more than 10000 children through its progressive after school curriculum largely based on 'holistic development' of children.

## Holistic Education

Holistic education is concerned with the development of intellectual, emotional, social, physical, artistic, creative and spiritual potentials of an individual. Holistic learning honours life experience. Mind Ventures International's After School Program strives to create complete individuals through the virtues of this type of teaching. The mission is to provide a well balanced life education and experience.

## After School Program

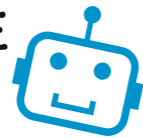

After School learning offers children a chance to explore their potentials and likings beyond the rigours of a school curriculum. Meaningful learning experiences can turn aimless hours after school into productive learning. With MVI, children are exposed to Tinkering, Inventing, Coding, Science, Music, Art, Fitness and many more facts of education through experiential learning that foster 21st century learning skills. Sometimes the delivery of these experiences are also held with a flipped classroom approach where children are encouraged to lead learning rather than follow an instructor.

# teamss-Ed

EXPLORE IMAGINE CREATE

Children are extraordinarily adaptable beings. French psychologist Jean Piaget popularly known as the Father of Development Psychology mapped out stages of cognitive development in children grow from a sensory infant to a toddler, unsure of the boundaries between her imagination and the external world ; to an older child, able to manipulate complex abstractions like algebraic formulas.

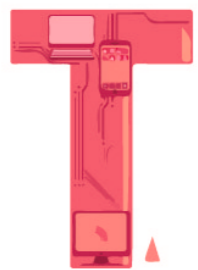

Piaget's Learning cycle provides insight into the way learners could deconstruct knowledge. STEAM Education is-  
"one such method of deconstruction/unfolding of knowledge."

TEAMSS Ed is a unique program built at Mind Ventures International for children to experience **STEAM** Education in combination with Skill Education.

**STEAM + SKILLS = TEAMSS Ed**

Science

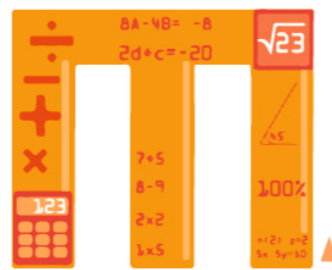

Technology

Engineering

Arts

Mathematics

## BENEFITS

Encourages Independent Thinking

Induces 21st century learner skills

Interdisciplinary Approach

Equipping children to manage themselves in a Digital Society

Fosters creative solution skills

Provides a Hands-on-Learning Experience

Life appreciation and value based stimulus

"Too often we given children answers to learn, rather than problems to solve"  
- Roger Lewin

## CORPORATE PROGRAMS

“Holistic education is a philosophy of education based on the premise that each person finds identity, meaning, and purpose in life through connections to the community, to the natural world, and to humanitarian values such as compassion and peace. Holistic education aims to call forth from people an intrinsic reverence for life and a passionate love of learning.”

-Ron Miller - Pioneer in Holistic Education

**We grow with Partners and Alliances**  
meet the educators and verticals we are associated with, who know that we are always innovating and redefining children's After School Education Programs.
